

Wall Mount Hinged Brackets

Jumbo Openings in Sides and Rear.

Bottom Hinging Uses Less Space to Open.

Side Hinging Allows Complete Access to the Rear of Components.

FEATURES

- Enhanced cable management: multiple tie-off points for both nylon and **VELCRO**® Brand ties.
- Rugged hinge construction supports punching and bundles of cable.
- Jumbo cable opening in sides and rear eliminates cable strain and crowding.
- Increased material thickness provides sturdy support.
- Wall mount holes on 16" centers: easy to install and mount.
- Enhanced cable management accepts both nylon and **VELCRO**® Brand cable ties; accommodates service loop for fiber.

SPECIFICATIONS

- ◆ Material: 16 ga steel.
- ◆ Durable black powder coat finish.
- ◆ Wall mount holes on 16" centers.
- ◆ Jumbo cable openings in sides and rear.

STANDARDS/LISTINGS/VERIFICATIONS

- U.S. Patent No. 6,215,069.
- GR-63-CORE transportation requirements.

Wall mount brackets are common components for smaller network installations where space is limited. Used in traditional telephone closets, they help add structure in a space characterized by cramped quarters and limited work space. While Hubbell Premise Wiring can't help adjust the amount of real estate in the TC, we can provide an orderly, aesthetic, easy to terminate cable management solution that will maximize your TC space.

Hubbell's bottom-hinged wall mount brackets are a new addition to our line of wall mounted and front access solutions for the TC. The bottom-hinging allows punch-down on patch panels and the jumbo version is designed for heavier equipment in remote locations.

Hubbell also offers a side-hinged wall mount solution. This version is a rugged design with increased material thickness. The side-hinged bracket opens wide to provide complete access to the rear of components.

We offer a complete range of cross connect products specifically designed to provide the modularity, flexibility, and Category 5 performance while accommodating the condensed size of the TC. Together, the side- and bottom-hinged wall mount brackets meet the needs of any installer.

Wall Mount Bracket, Bottom-Hinged

Order Information

Use this bracket with our family of 19" patch panels and NEXTFRAME® cable management system to speed installation. The Jumbo (18" deep) version is expressly designed for heavier, deeper equipment in remote locations.

Delivery: 1 bottom-hinged wall bracket, completely assembled.

Rack Units	Height	Depth	Catalog No.
1	1.75" (45)	4" (102)	HPWWB1U4
