HUBBELL SystemOne

Recessed 6 and 8 Inch

Fire-Rated Poke-Throughs

Hubbell's SystemOne Recessed Fire-Rated Poke-Throughs enhance functionality with increased power, data and audio visual capacity. Safety is improved with recessed connectivity, a low profile flange, and egress doors that hinge inwards. Building value is enhanced with plated finishes to match and blend with modern building décor.

Architects, engineers and building owners are challenged by their clients to specify products that enhance building functionality, safety and value. Hubbell's SystemOne recessed product line is designed with those objectives in mind.

With HUBBELL,
we have you covered
from start to finish and
everything in between

Recessed Poke-Through Ordering, Easy as 1, 2, 3.

Recommended Fire-Rated Poke-Through Size Chart

Hubbell Poke-Through Selection Recommendations:

Recommendations:

Select 6 Inch product line for recessed applications requiring basic power, data and audio visual connections

Select 8 Inch product line for recessed applications requiring multiple power, data and multiple audio visual connection points

See recommended FRPT size chart below.

Increase flexibility with Hubbell's Video Extenders

Hubbell's HDMI High-Definition 110 Video Extender transmits 1080p signals over two solid unshielded twisted-pair (UTP) cables, allowing video display devices to be located up to 147 feet away from a digital source. Ideal for projectors, smartboards, HDTVs, flat screens and monitors and other video display devices.

To avoid over or under utilizing the capacity of the fire-rated poke-through, first determine how many gangs of power, data and AV are required for the application. The matrix below will guide you to the correct poke-through size.

		Recommended Fire-Rated Poke-Through Size					
POWER GANGS	5	8"	Exceeds capacity				
	4	8"	8"	of Hubbell recessed			
	3	6"	8"	8"	poke-throughs		
	2	6"	6"	8"	8"		
	1	6"	6"	6"	8"	8"	
	0	—	6"	6"	8"	8"	
		0	1	2	3	4	5
		DATA AND AV GANGS					

Example: 2 gangs of power, 1 gang of AV & 1 gang of data is required. Find the intersection for 2 power gangs with 2 data/AV gangs. The highlighted intersection defines the recommended FRPT.

Benefits and Enhancements

Safety

- Low profile flange, 0.150", is better than ADA requirements
- Hide-away egress doors fold under cover while in use
- 180° opening of main door

Functionality

- Cables and connections are protected by recessed functionality
- Open architecture sub-plate design
- Dirt ingress reduced by egress door brushes
- Exceeds UL 514A Scrub Requirements with ScrubShield technology
- Easy selection with common flange for all floor types

Value

- Enhance building décor with numerous finishes
- Increase durability and longevity with cast aluminum covers

6 Inch Sub-Plate Features

60/40 Device Plate Combination

- Allows for a wide array of data and audio visual connectivity with a 20A duplex receptacle
- The two plates can be independently wired

50/50 Device Plate Combination

- Accommodates up to two 20A duplex receptacles with eight data or audio visual connections
- The two plates can be independently wired

8 Inch Sub-Plate Features

Center Plate Configurations

- Allows for three duplex receptacles or up to 18 data and or audio visual jacks
- Open architecture sub-plate design accommodates FSR®, Extron®, Crestron®, etc.
- NEMA spacing between devices
- All plates can be independently wired

Outer Plate Configurations

- Available in pre-wired 20A duplex receptacles or data/AV plates
- Multiple 20A duplex receptacles can be wired to a common circuit or independently

On-line Resources

- BIM models, customer drawings and technical specifications are available on www.hubbell-wiring.com.

Increase installation efficiency with Hubbell Pre-Pour Sleeves

- Reduce on-site time and labor by removing the need for floor x-raying or core-hole drilling
- Rigid multi-piece plastic construction
- 6" or 8" outside diameter
- Scaled divisions on mounting legs for easy leveling

Increase protection for high end electronics with Hubbell Surge Receptacles

- 15A and 20A versions
- Meets UL 1449 3rd edition and UL 498
- Green power indication light
- Optional audible alarm

6 Inch Fire-Rated Poke-Through Fittings

- Step down installation
- Maintains concrete floor fire rating up to two hours
- Junction box standard
- Includes (1) 2 inch data/AV EMT and (1) 3/4 inch power EMT
- For use in the City of Chicago, junction box NOT included

HUBBELL SystemOne Recessed 6 and 8 Inch Fire-Rated Poke-Throughs

Hubbell Installation Efficiency Product Solutions

Pre-Wired Raceway

Available in aluminum, steel and non-metallic versions, Hubbell's pre-wired raceway systems will keep your projects on schedule, reduce on-site labor and waste. Our local sales team is available to support your efforts.

Pre-Fab Solutions

Pre-fab solutions can reduce projects by as much as 30% while reducing on-site waste. The Rough in Ready Pre-Fab solution offered by Hubbell provides a variety of options from innovative bracket to cable-ready assemblies.

Modular Wiring

Hubbell CONNEXION Zone Distribution System is a factory assembled modular plug-n-play system that delivers power and data to the workstation in raised floor installations.

Wire Basket Tray System

Hubbell, a recognized leader in power, data, audio video delivery systems, has expanded its offering to include an innovative, flexible and field-configurable Wire Basket Tray System. Hubbell Wire Basket expands the vast array of Floor Boxes, Fire-Rated Poke-Throughs, Surface Raceway Systems, and Ladder Rack Systems.

Literature Support

Hubbell offers an extensive literature library for product support. Downloadable PDFs are available online at www.hubbell-wiring.com under the Media tab.
